PSyclone tutorial

- PSyclone is already installed on the VM you have downloaded
- The tutorial uses Jupyter notebooks
- If you're not familiar to with jupyter notebooks then just keep clicking the run button to work through the steps and follow the instructions

esiwace
CENTRE OF EXCELLENCE IN SIMULATION OF WEATHER AND CLIMATE IN EUROPE

PSyclone tutorial

1. Open a terminal
2. `> cd dsls/dsl-training`
3. `> git pull`
4. `> . start.sh`
5. `> cd psyclone/tutorial`
6. `> jupyter-notebook introduction.ipynb`

Enjoy!
